Dear Mr. Weisberg,

Thank God for the phones, eventhough some may be tapped, otherwise we would really be in the dark!

Enclosed is the clipping you requested, along with another one which might or might not be of importance to you.

Also enclosed is a check for $10.75 for your book "Post Mortem".

Over the phone I read to Dave Marston the clipping about Nixon's Swiss Bank Account.

Mr. Marston is Sen. Schweiker's man in charge of their investigation in the Kennedy Assassination. Mr. Marston said they just didn't have the resources to check it out. Therefore I'm sending it to you.

Along with my two preschoolers, I went to ask our Vice President Rockefeller, while he was here for the White House Domestic Forum, a pointed question about the JFK assassination. I was told by a Secret Service agent that since I wasn't "scheduled" or

"debriefed", I could not, so much for "open forums"!

I then left and talked to about 8 Secret Service men, I showed them photographs. One said, "Why tell us?" I said it is your job. There are killers loose and it is your job to apprehend them. A couple of them said, "What's the fuss, "Don't you know there was the Warren Report?"

I was speechless to that. But out of the group one said "Did you write your Congressman?" I said yes, and

Congressman Gibbons wants it opened up. This particular agent gave me a reassuring look and said "Good."

I told them all to watch the CBS special. They said they would.

I have a question. Why did you have the Enquirer carry the autopsy sketch instead of a more credible publication?

I'm looking forward to the arrival of your latest book.

Sincerely,

Barbara Godwin Riley

P.S. If it would be of use to you, I could forward Tampa Tribune and Tampa Times (clippings) dealing with subsequent stories about the JFK association.

I'm grateful for your part in the Pursuit of Truth.
